

IN THE CLAIMS

Please amend claims 46 and 113 to read as follows:

A1  
46. (Amended) The apparatus of Claim 14 wherein at least one theater comprises a complex of multiple auditoriums and said means for storing compressed image and audio information is configured to transfer compressed information of a single image program to different ones of said auditoriums with preselected programmable offsets in time relative to each other.

A2  
113. (Amended) The method of Claim 82 further comprising transferring compressed information of a single image program from said central facility to different ones of said auditoriums in a complex of multiple auditoriums in a theater with preselected programmable offsets in time relative to each other.
